## King Mongkut's University of Technology Thonburi:

### The surveillance of COVID-19 outbreak

#### No. 60 on July 16, 2021

On July 16, 2021, the University was reported 7 COVID-19 confirmed cases as follows:

The first case is a male master's student from the Graduate School of Management and Innovation **(the 79<sup>th</sup> case of KMUTT)**. Currently, he is in a government hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students and staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a female undergraduate student from the Department of Civil Engineering, Faculty of Engineering **(the 80<sup>th</sup> case of KMUTT)**. Currently, she is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 30, 2021 in the afternoon. She wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, she hadn't entered the University premises (KMUTT Bangmod Campus) and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a female undergraduate student from the Department of Educational Communications and Technology, Faculty of Industrial Education and Technology **(the 81<sup>st</sup> case of KMUTT)**. Currently, she is in a government hospital for treatment. The student hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students and staff since June. However, the student had met two of her friends off-campus. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a female undergraduate student from the Department of Educational Communications and Technology, Faculty of Industrial Education and Technology **(the 82<sup>nd</sup> case of KMUTT)**. Currently, she is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The student reported that she hasn't entered

the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students and staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a male master's student from the School of Information Technology **(the 83<sup>rd</sup> case of KMUTT)**. Currently, he is in a government hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students and staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The sixth case is a female master's student from the Graduate School of Management and Innovation **(the 84<sup>th</sup> case of KMUTT)**. Currently, she is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students and staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The seventh case is a male undergraduate student from the Department of Educational Communications and Technology, Faculty of Industrial Education and Technology **(the 85<sup>th</sup> case of KMUTT)**. Currently, he is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students and staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on July 16, 2021 at 10.00 hrs.

Should there be any update on the situation, the University will further announce it via <https://covid-19.kmutt.ac.th>
