

# Notice of King Mongkut's University of Technology Thonburi: The surveillance of COVID-19 outbreak No. 69 on July 24, 2021

On July 24, 2021, the University was reported 8 COVID-19 confirmed cases as follows:

The first case is a male staff member of the School of Architecture and Design **(the 117<sup>th</sup> case of KMUTT)**. Currently, he is in a hospital for treatment. The staff reported that 14 days before knowing the positive result of COVID-19 test he hasn't entered the University premises (KMUTT Bang Khun Thian Campus) and hasn't done any activities with other students or staff. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a male staff member of the Institute for Scientific and Technological Research and Services **(the 118<sup>th</sup> case of KMUTT)**. Currently, he is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The staff reported that he entered the University premises (KMUTT Bangmod Campus) on the following dates: July 11-12, and July 14, 2021. He kept physical distancing from the others and wore a face mask all the time. The investigation revealed 3 staff members who are considered as a risk group. The University has given order the said staff member to undergo self-quarantine and work from home for 14 days.

The third case is a male undergraduate student from the Department of Production Technology Education, Faculty of Industrial Education and Technology **(the 119<sup>th</sup> case of KMUTT)**. Currently, he is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a female undergraduate student from the Department of Production Technology Education, Faculty of Industrial Education and Technology **(the 120<sup>th</sup> case of KMUTT)**. Currently, she is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 29, 2021 in the morning. She wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, she hadn't entered the University premises (KMUTT Bangmod Campus) and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a male undergraduate student from the Department of Mathematics, Faculty of Science **(the 121<sup>st</sup> case of KMUTT)**. Currently, he is in a hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 21, 2021 in the afternoon. He wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, he hadn't entered the University premises (KMUTT Bangmod Campus) and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The sixth case is a male undergraduate student from the Industrial Technology–Mechanical Technology Program, Faculty of Industrial Education and Technology **(the 122<sup>nd</sup> case of KMUTT)**. Currently, he is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The seventh case is a female master's student from the Faculty of Science **(the 123<sup>rd</sup> case of KMUTT)**. Currently, she is in a government hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 19, 2021 in the afternoon. She wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, she hadn't entered the University premises (KMUTT Bangmod Campus) and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The eighth case is a female master's student from the School of Energy, Environment, and Materials **(the 124<sup>th</sup> case of KMUTT)**. Currently, she is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on July 24, 2021 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via <https://covid-19.kmutt.ac.th>
