

Notice of

King Mongkut's University of Technology Thonburi:

The surveillance of COVID-19 outbreak

No. 62 on July 17, 2021

On July 16, 2021, the University was reported 4 COVID-19 confirmed cases as follows:

The first case is a female master's student from the Department of Educational Communications and Technology, Faculty of Industrial Education and Technology **(the 90th case of KMUTT)**. Currently, she is in a private hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 15, 2021. She wore a facemask all the time and wasn't in close contact with other students or staff. Except for that day, she hadn't entered the University premises (KMUTT Bangmod Campus) and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a female undergraduate student from the Department of Tool and Materials Engineering, Faculty of Engineering **(the 91st case of KMUTT)**. Currently, she is in a private hospital for treatment. The student reported that she hadn't entered the University premises (KMUTT Bangmod Campus) and hadn't done any activities with other students and staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a female master's student from the Graduate School of Management and Innovation **(the 92nd case of KMUTT)**. Currently, she is in a government hospital for treatment. The student reported that she hadn't entered the University premises (KMUTT Bangmod Campus) and hadn't done any activities with other students and staff since June.

The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a male visiting staff of the National Biopharmaceutical Facility, KMUTT Bang Khun Thian Campus **(the 90th case of KMUTT)**. Currently, he is in a government hospital for treatment. The staff reported that he hadn't entered the University premises (KMUTT Bangmod Campus) and hadn't done any activities with other students and staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on July 17, 2021 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via <https://covid-19.kmutt.ac.th>
