

Notice of

King Mongkut's University of Technology Thonburi:

The surveillance of COVID-19 outbreak

No. 64 on July 19, 2021

On July 19, 2021, the University was reported 3 COVID-19 confirmed cases as follows:

The first case is a male graduate student from the Bioscience Program, Faculty of Science **(the 96th case of KMUTT)**. Currently, he is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) on July 11-13, 2021. During those days, he visited the microbiology laboratory located on the 4th floor of Faculty of Science Building. He wore a facemask all the time and kept distancing from the others. The investigation revealed 2 classmates who are considered as a risk group. They are currently undergoing 14-day quarantine to monitor their symptoms. Except for those days, he hadn't entered the University premises (KMUTT Bangmod Campus) and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a female undergraduate student from the Department of Printing and Packaging Technology, Faculty of Industrial Education and Technology **(the 97th case of KMUTT)**. Currently, she is in the care of the relevant government agencies and is waiting to be transferred to hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 28, 2021 in the afternoon. She wore a facemask all the time and wasn't in close contact with other students or staff. Except for that day, she hadn't entered the University premises (KMUTT Bangmod Campus) and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a female staff member of the Joint Graduate School of Energy and Environment (**the 98th case of KMUTT**). Currently, she is in a private hospital for treatment. The staff reported that she entered the University premises (KMUTT Bang Khun Thian Campus) on these following dates: July 5-7, and July 12, 2021. She wore a facemask all the time and wasn't in close contact with other students or staff. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on July 19, 2021 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via <https://covid-19.kmutt.ac.th>
