

# Notice of King Mongkut's University of Technology Thonburi: The surveillance of COVID-19 outbreak No. 86 on August 10, 2021

On August 10, 2021, the University was reported 8 COVID-19 confirmed cases as follows:

The first case is a female undergraduate student from the Department of Educational Communications and Technology, Faculty of Industrial Education and Technology **(the 259<sup>th</sup> case of KMUTT)**. Currently, she is receiving medical treatment at home (Home Isolation Program), and is waiting for further response from the government hospital regarding her treatment program. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a male undergraduate student from the Digital Service Innovation Program, School of Information Technology **(the 260<sup>th</sup> case of KMUTT)**. He is currently waiting to be transferred to a government hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a male master's student from the Faculty of Science **(the 261<sup>st</sup> case of KMUTT)**. Currently, he is receiving medical treatment at home (Home Isolation Program), and is waiting for further response from the private hospital regarding his treatment program. The student entered the University premises (KMUTT Bangmod Campus) only on June 15, 2021. He wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, he hadn't visited the University and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a female undergraduate student from the Department of Microbiology, Faculty of Science **(the 262<sup>nd</sup> case of KMUTT)**. Currently, she is undergoing the Home Isolation Program. The student entered the University premises (KMUTT Bangmod Campus) only on June 14, 2021. She wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, she hadn't visited the University and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a male undergraduate student from the Joint Management Program, Media Arts and Media Technology, School of Architecture and Design **(the 263<sup>rd</sup> case of KMUTT)**. Currently, he is undergoing the Home Isolation Program. The student entered the University premises (KMUTT Bangmod Campus) only on June 28, 2021. He wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, he hadn't visited the University and hadn't done any activities with other students or staff. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The sixth case is a female undergraduate student from the Joint Management Program, Media Arts and Media Technology, School of Architecture and Design **(the 264<sup>th</sup> case of KMUTT)**. Currently, she is undergoing the Home Isolation Program. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The seventh case is a male security guard working in the King Mongkut's 190th Anniversary Memorial Building **(the 265<sup>th</sup> case of KMUTT)**. Currently, he is receiving medical treatment at home (Home Isolation Program). The related units are currently investigating to identify people whom the infected staff might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The eighth case is a female staff member of the Darunsikkhalai School for Innovative Learning (DSIL) **(the 266<sup>th</sup> case of KMUTT)**. Currently, she is in a hospital for treatment. The staff reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff. The related units are currently investigating to identify people whom the infected staff might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on August 10, 2021 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via <https://covid-19.kmutt.ac.th>
