

Notice of

King Mongkut's University of Technology Thonburi:

The surveillance of COVID-19 outbreak

No. 100 on August 24, 2021

On August 24, 2021, the University was reported 7 COVID-19 confirmed cases as follows:

The first case is a female staff member of the Faculty of Science **(the 357th case of KMUTT)**. Currently, she is undergoing the Home Isolation Program. The staff reported that she hasn't entered the University premises (KMUTT Bangmod Campus). The related units are currently investigating to identify people whom the infected staff might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a male undergraduate student from the Department of Electronics and Telecommunication Engineering, Faculty of Engineering **(the 358th case of KMUTT)**. Currently, he is in a hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 29, 2021. He wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, he hadn't visited the University and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a male undergraduate student from the Department of Microbiology, Faculty of Science **(the 359th case of KMUTT)**. Currently, he is in a hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) on August 18, 2021 to conduct a research project with 2 classmates at the microbiology laboratory located on the 5th floor of Faculty of Science Building (Lab MIC 505-507). The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a male undergraduate student from the Department of Computer Engineering, Faculty of Engineering **(the 360th case of KMUTT)**. Currently, he is in a hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a female undergraduate student from the Department of Tool and Materials Engineering, Faculty of Engineering (the 361st case of KMUTT). Currently, she is waiting to be transferred to a government hospital for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The sixth case is a male master's student from the Computer and Information Technology Program, Faculty of Industrial Education and Technology (the 362nd case of KMUTT). The student reported that he has fully recovered from COVID-19 after being hospitalized for treatment in the government hospital. The student hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The seventh case is a male undergraduate student from the Department of Mechanical Technology Education, Faculty of Industrial Education and Technology (the 363rd case of KMUTT). Currently, he is in the care of the relevant government agencies and is waiting to be transferred to the hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 21, 2021. He wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, he hadn't visited the University and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on August 24, 2021 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via <https://covid-19.kmutt.ac.th>
