

Notice of

King Mongkut's University of Technology Thonburi:

The surveillance of COVID-19 outbreak

No. 92 on August 16, 2021

On August 16, 2021, the University was reported 9 COVID-19 confirmed cases as follows:

The first case is a male undergraduate student from the Department of Educational Communications and Technology, Faculty of Industrial Education and Technology **(the 310th case of KMUTT)**. Currently, he is undergoing the Home Isolation Program. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a male undergraduate student from the Department of Tool and Materials Engineering, Faculty of Engineering **(the 311th case of KMUTT)**. He is currently waiting to be transferred to a private hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 15, 2021. He wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, he hadn't visited the University and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a male undergraduate student from the Department of Microbiology, Faculty of Science **(the 312th case of KMUTT)**. Currently, he is in a government hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a male undergraduate student from the Information Technology Program, School of Information Technology **(the 313th case of KMUTT)**. Currently, he is undergoing the Home Isolation Program. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a female undergraduate student from the Department of Production Technology Education, Faculty of Industrial Education and Technology **(the 314th case of KMUTT)**. Currently, she is in a government hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 29, 2021. She wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, she hadn't visited the University and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The sixth case is a female undergraduate student from the Department of Chemistry, Faculty of Science **(the 315th case of KMUTT)**. Currently, she is undergoing the Home Isolation Program. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The seventh case is a female staff member of the Institute of Field Robotics **(the 316th case of KMUTT)**. Currently, she is in a government hospital for treatment. The staff reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff. The related units are currently investigating to identify people whom the infected staff might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The eighth case is a female staff member of the Department of Production Engineering, Faculty of Engineering **(the 317th case of KMUTT)**. Currently, she is undergoing the Home Isolation Program. The staff reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff. The related units are currently investigating to identify people whom the infected staff might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The ninth case is a female staff member of the KX (Knowledge Exchange) **(the 318th case of KMUTT)**. Currently, she is undergoing the Home Isolation Program. The staff reported that she has neither visited the KX (Knowledge Exchange) Building nor the KMUTT Bangmod Campus, and hasn't done any activities with other students or staff. The related units are currently investigating to identify people whom the infected staff might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on August 9, 2021 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via <https://covid-19.kmutt.ac.th>
