

Notice of

King Mongkut's University of Technology Thonburi:

The surveillance of COVID-19 outbreak

No. 101 on August 25, 2021

On August 25, 2021, the University was reported 6 COVID-19 confirmed cases as follows:

The first case is a female staff member of the Science Technology and Innovation Policy Institute **(the 364th case of KMUTT)**. Currently, she is undergoing the Home Isolation Program. The staff entered the University premises (KMUTT Bangmod Campus) on August 13, 2021. She wore a face mask all the time and wasn't in close contact with other students or staff. The related units are currently investigating to identify people whom the infected staff might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a male undergraduate student from the Department of Electrical Technology Education, Faculty of Industrial Education and Technology **(the 365th case of KMUTT)**. Currently, he is undergoing the Home Isolation Program. The student entered the University premises (KMUTT Bangmod Campus) only on June 29, 2021. He wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, he hadn't visited the University and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a female undergraduate student from the Department of Tool and Materials Engineering, Faculty of Engineering **(the 366th case of KMUTT)**. Currently, she is in the care of the relevant government agencies and is waiting to be transferred to the hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 29, 2021. She wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, she hadn't visited the University and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a female undergraduate student from the Department of Production Technology Education, Faculty of Industrial Education and Technology **(the 367th case of KMUTT)**. Currently, she is undergoing the Home Isolation Program. The student entered the University premises (KMUTT Bangmod Campus) only on June 29, 2021. She wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, she hadn't visited the University and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a male undergraduate student from the Department of Production Technology Education, Faculty of Industrial Education and Technology **(the 368th case of KMUTT)**. Currently, he is in a hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 29, 2021. He wore a face mask all the time and wasn't in close contact with other students or staff.
