## King Mongkut's University of Technology Thonburi:

### The surveillance of COVID-19 outbreak

#### No. 109 on September 3, 2021

On September 3, 2021, the University was reported 6 COVID-19 confirmed cases as follows:

The first case is a male undergraduate student from the Department of Chemical Engineering, Faculty of Engineering **(the 391<sup>st</sup> case of KMUTT)**. Currently, he is in a hospital for treatment. The student entered the University premises (KMUTT Bangmod Campus) only on June 28, 2021. He wore a face mask all the time and wasn't in close contact with other students or staff. Except for that day, he hadn't visited the University and hadn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a male undergraduate student from the Department of Chemical Engineering, Faculty of Engineering **(the 392<sup>nd</sup> case of KMUTT)**. Currently, he is undergoing the Home Isolation Program. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a male undergraduate student from the Department of Mathematics, Faculty of Science **(the 393<sup>rd</sup> case of KMUTT)**. The student reported that he has fully recovered from COVID-19 after being hospitalized for treatment in the government hospital. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since June. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a male security guard working on a night shift at the Classroom Building 2, **(the 394<sup>th</sup> case of KMUTT)**. Currently, he is in a hospital for treatment. The last day that he was at work is August 30, 2021. The related units are currently investigating to identify people whom the infected staff might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a male security guard who works at zone C of the UX Building, KMUTT Bangmod Campus **(the 395<sup>th</sup> case of KMUTT)**. Currently, he is in a hospital for treatment. The last day that he was at work is September 2, 2021. The related units are currently investigating to identify people whom the infected staff might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The sixth case is a male security guard who works at zone B of the UX Building, KMUTT Bangmod Campus **(the 396<sup>th</sup> case of KMUTT)**. Currently, he is in a hospital for treatment. The last day that he was at work is September 2, 2021. The related units are currently investigating to identify people whom the infected staff might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on September 3, 2021 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via <https://covid-19.kmutt.ac.th>
