

Notice of

King Mongkut's University of Technology Thonburi:

The surveillance of COVID-19 outbreak

No. 124 on September 22, 2021

On September 22, 2021, the University was reported 5 COVID-19 confirmed cases as follows:

The first case is a male undergraduate student from the Department of Electrical Technology Education, Faculty of Industrial Education and Technology **(the 441st case of KMUTT)**. Currently, he is undergoing the Home Isolation Program. The student entered the University premises (KMUTT Bangmod Campus) only on September 16, 2021. He wore a face mask all the time and wasn't in close contact with other students or staff. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a male undergraduate student from the Department of Microbiology, Faculty of Science **(the 442nd case of KMUTT)**. The student reported that he has fully recovered from COVID-19 after receiving treatment in a hospital. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since July. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a female undergraduate student from the Department of Production Technology Education, Faculty of Industrial Education and Technology **(the 443rd case of KMUTT)**. Currently, she is in a hospital for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since July. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a female undergraduate student from the Department of Tool and Materials Engineering, Faculty of Engineering **(the 444th case of KMUTT)**. Currently, she is in a government hospital for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since July. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a female undergraduate student from the Department of Educational Communications and Technology, Faculty of Industrial Education and Technology **(the 445th case of KMUTT)**. Currently, she is in a hospital for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since July. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on September 22, 2021 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via <https://covid-19.kmutt.ac.th>
