## King Mongkut's University of Technology Thonburi:

### The surveillance of COVID-19 outbreak

#### No. 190 on January 19, 2022

On January 19, 2022, the University was reported 9 COVID-19 confirmed cases as follows:

The first case is a male staff member of Darunsikkhalai School for Innovative Learning (DSIL) (the Unit under supervision of the University) **(the 639<sup>th</sup> case of KMUTT)**. Currently, he is undergoing his treatment Program. The investigation revealed that there was a risk group. Thus, the University has given order to the staff members who were considered as the risk group to conduct the ATK tests; currently, all of them test negative (COVID-19 not detected). To confirm the result, the staff were asked to take RT-PCR test.

The second case is a male undergraduate student from the Department of Printing and Packaging Technology, Faculty of Industrial Education and Technology **(the 640<sup>th</sup> case of KMUTT)**. Currently, he is in a hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a male undergraduate student from the Communication Design Program, School of Architecture and Design **(the 641<sup>st</sup> case of KMUTT)**. Currently, he is undergoing the Home Isolation Program. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus and KMUTT Bang Khun Thian Campus) and hasn't done any activities with other students or staff since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a female undergraduate student from the Department of Mechanical Engineering, Faculty of Engineering **(the 642<sup>nd</sup> case of KMUTT)**. Currently, she is in a hospital for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a male undergraduate student from the Department of Environmental Engineering, Faculty of Engineering **(the 643<sup>rd</sup> case of KMUTT)**. Currently, he is in a hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The sixth case is a male undergraduate student from the Digital Service Innovation Program, School of Information Technology **(the 644<sup>th</sup> case of KMUTT)**. Currently, he is in a hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The seventh case is a male undergraduate student from the Department of Electrical Technology Education, Faculty of Industrial Education and Technology **(the 645<sup>th</sup> case of KMUTT)**. Currently, he is in a hospital for treatment. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The eighth case is a female undergraduate student from the Department of Mathematics, Faculty of Science **(the 646<sup>th</sup> case of KMUTT)**. Currently, she is in a hospital for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The ninth case is a female undergraduate student from the Department of Civil Engineering, Faculty of Engineering **(the 647<sup>th</sup> case of KMUTT)**. Currently, she is in a hospital for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since January 2022. The student also informed that she had met her friends to have meal and had travelled together. The students who were considered as a risk group are informed to undergo self-quarantine to monitor their symptoms for 14 days. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on January 19, 2022 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via <https://covid-19.kmutt.ac.th>
