Notice of
King Mongkut's University of Technology Thonburi:
The surveillance of COVID-19 outbreak
No. 199 on January 28, 2022

On January 28, 2022, the University was reported 10 COVID-19 confirmed cases as follows:

The first case is a female undergraduate student from the Department of Civil Technology Education, Faculty of Industrial Education and Technology **(the 760th case of KMUTT)**. Currently, she is in a hospitel for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a female master's student from the Department of Civil Engineering, Faculty of Engineering **(the 761st case of KMUTT)**. The student reported that she has fully recovered from COVID-19 after being hospitalized for treatment in a hospitel. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a female undergraduate student from the Department of Electrical Technology Education, Faculty of Industrial Education and Technology **(the 762nd case of KMUTT)**. Currently, she is in a hospitel for a treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a male undergraduate student from the Department of Mechanical Engineering, Faculty of Engineering **(the 763rd case of KMUTT)**. The student reported that he has fully recovered from COVID-19 after being hospitalized for treatment in a hospital. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) and hasn't done any activities with other students or staff since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a female undergraduate student from the Department of Printing and Packaging Technology, Faculty of Industrial Education and Technology **(the 764th case of KMUTT)**. Currently, she is in a hospitel for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The sixth case is a male undergraduate student from the Institute of Field Robotics **(the 765ᵗʰ case of KMUTT)**. He has already contacted the relevant government agencies, and is currently waiting for further response regarding his Home Isolation treatment program. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The seventh case is a female undergraduate student from the Department of Production Engineering, Faculty of Engineering **(the 766ᵗʰ case of KMUTT)**. Currently, she is in a hospitel for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The eighth case is a female master's student from the School of Information Technology **(the 767ᵗʰ case of KMUTT)**. Currently, she is in a hospitel for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The ninth case is a female undergraduate student from the Information Technology Program, School of Information Technology **(the 768ᵗʰ case of KMUTT)**. Currently, she is in a private hospital for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The tenth case is a male undergraduate student from the Department of Physics, Faculty of Science **(the 769ᵗʰ case of KMUTT)**. The student reported that he has fully recovered from COVID-19 after being hospitalized for treatment in a private hospital. The student reported that he hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on January 28, 2022 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via **https://covid-19.kmutt.ac.th**
