Notice of
King Mongkut's University of Technology Thonburi:
The surveillance of COVID-19 outbreak
No. 204 on February 2, 2022

On February 2, 2022, the University was reported 6 COVID-19 confirmed cases as follows:

The first case is a male undergraduate student from the Department of Mechanical Engineering, Faculty of Engineering **(the 795th case of KMUTT)**. Currently, he is in a hospitel for treatment. The student entered the University premises (KMUTT Bangmod Campus) on January 11, 2022. He kept physical distancing and wore a face mask all the time while visiting the university premises. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The second case is a female undergraduate student from the Department of Environmental Engineering, Faculty of Engineering **(the 796th case of KMUTT)**. Currently, she is undergoing the Home Isolation Program. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The third case is a female undergraduate student from the Department of Chemical Engineering, Faculty of Engineering **(the 797th case of KMUTT)**. Currently, she is in a hospitel for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fourth case is a female undergraduate student from the Department of Chemical Engineering, Faculty of Engineering **(the 798th case of KMUTT)**. Currently, she is in a hospitel for treatment. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The fifth case is a female undergraduate student from the Department of Electronic and Telecommunication Engineering, Faculty of Engineering **(the 799th case of KMUTT)**. The student reported that she has fully recovered from COVID-19 after being hospitalized for treatment in a hospitel. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

The sixth case is a female undergraduate student from the Department of Production Engineering, Faculty of Engineering **(the 800th case of KMUTT)**. The student reported that she has fully recovered from COVID-19 after being hospitalized for treatment in a hospitel. The student reported that she hasn't entered the University premises (KMUTT Bangmod Campus) since January 2022. The related units are currently investigating to identify people whom the infected student might be in close contact with to assess the level of risk and continue to operate the relevant practices according to the measures of the Department of Disease Control.

Announced on February 2, 2022 at 12.00 hrs.

Should there be any update on the situation, the University will further announce it via **https://covid-19.kmutt.ac.th**
